Educating our children is one of the most important long term activities to which parents, teachers and the community at large commit their time, talent and treasure. The Hendersonville Chamber Foundation has focused its energy for over twenty five years toward support of our schools and the education of our students. From that vision, the idea of annual School Improvement Awards was developed with a goal to enhance the educational experience in as many Hendersonville classrooms as possible. All public schools in Hendersonville and any private school that is a member of the Hendersonville Chamber of Commerce are eligible to participate. We are delighted to partner with COMPASS each year to assure seamless administration of awards. The Chamber Foundation is very pleased to offer this event "Aces for Academics" as a benefit in support of our annual School Improvement Awards and thank you for your time, talent and treasure for our schools.
